

Glass Installation

Important! Use only decorative fire glass that is approved for fire applications.

Important! Do not use decorative fire glass when using propane gas on Grand Effects Features

Buy a precut stainless steel wire screen from Grand Effects as shown above.

Lay down precut stainless wire screen over Grand Effects Burner Assembly. Make sure that the Grand Effects Burner Assembly is using the Pilot Box Cover option as shown above.

Cover screen and Burner Assembly with thin layer of glass. Use just enough glass to cover Burner Assembly and screen. Make sure that glass pieces stay out of Pilot Box Cover.
